

# Setting a Tablet as a Clock-In Device

Last Modified on 03/27/2024 11:24 am MDT

## Set a Tablet for Clock-In (i.e. iPad or other tablet)

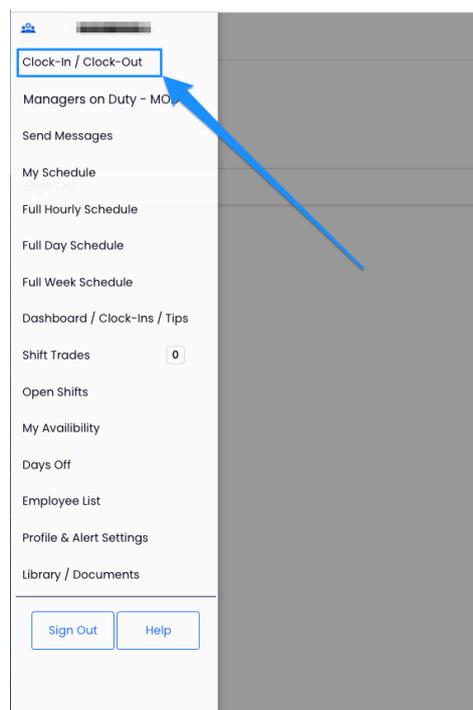

*This action must be taken by an ADMIN, or manager, who is active in Teamwork, with permissions to set a clock-in device at the intended location.*

Download SpotOn Teamwork **Classic** App

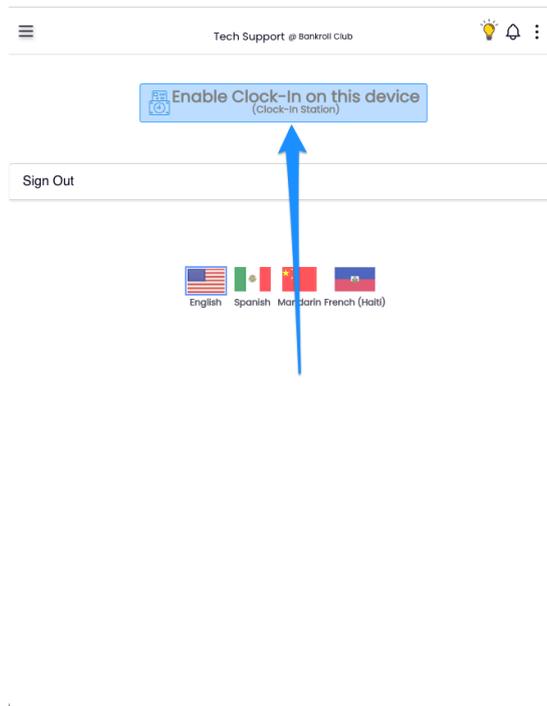

Open App. Then find your company using your personal email address or phone number that is associated with your Teamwork profile

Log-In to the App

1. Press **Clock-In / Clock-Out** from the **Menu Bar**

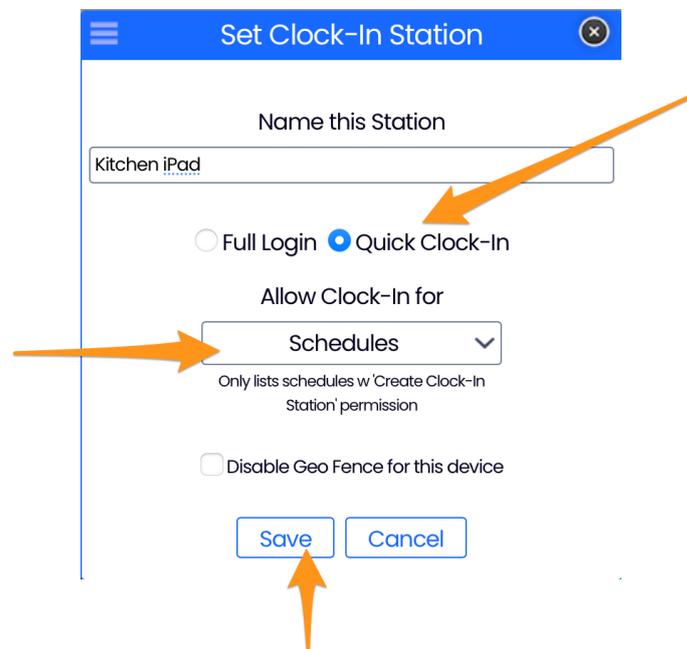

2. Press **Enable clock-in on this device**

### 3. Enter Name & Settings

- Check the setting for **Quick Login** for quick 4-Pin clock in/out that matches POS.
- If device will be used for only a single location or department, select the location and department from the "Allow Clock-In for" dropdown

### NOTES:

Employee PINs can be viewed / added / edited from their profile page.

HOW TO Clock-In: <https://support.dolceclock.com/help/clock-in-using-quick-pin>

If a user need to give temporary permission to an employee to setup a station, please email us at [dolcesupport@spoton.com](mailto:dolcesupport@spoton.com)

For photo taken with clock-in, see: <https://dolcesoftware.knowledgeowl.com/help/photo-authentication>
